CLASSIFICATION OF APPLICANTS

Each application will be reviewed by the Department staff and classified into a category depending on the type of organization and the intended use. The Department activities have first priority for the use of the facilities. The classifications are listed in order of priority with classification "A" first, classification "B" second, etc.

The City attempts to accommodate all groups; however, there is a limited number of facilities. Unfortunately, the demand exceeds the supply. For that reason, a priority classification system for use was established.
